## Native Instruments Kontakt 5 V5.1.0

Open Native Access and log in with your NI account email address and password. n KONTAKT will automatically activated after login. There are three main tools in the system. They are very easy to use and give you full access to applications. 1. Sync Applications with NI KONTAPI Files When the app is launched on Native Audio, Native Kontakt creates a Konta agent account.

It also gives you control over your Native Application Manager. Press right Ctrl+Shift+N+Enter on Navitel to add the Kontai account to the list of agents. Navitesl will automatically download, show and run the application on all devices, so you will have the full version of NativeAudio at your disposal. 2. Touch screen allows you to move apps in Market It may seem strange to some users, but touch screens are just as important to them as they are to everyone else, so I recommend always using Native Assist. If you're using a touchscreen, simply tap and hold on apps in Market so you can move them between Market and Native Spotlight. If you don't, the apps will automatically move to the Market. 3. Options that can be enabled in Native Activity Manager on NI For your convenience, NA has application management tools. They can be found in the settings of your Native app. Make sure you disable auto-update attributes. NA does not have this option. Some apps never get updated. To verify this, open the Action Script application on NA and click on the Update icon in the upper right corner of the application. NA will unblock the app if the app is not updated, but these settings are app specific. You can change them by clicking on Applications and double clicking on Id. This is probably my best advice for using Native Account Manager - advanced application management settings. To enable or not all these options, everyone decides for himself, it depends only on you. You can even go to the app's settings and enable buttons that will update automatically. Users often ask: "How to disable NA settings?", "How to enable or disable Native Com
