What's New in the?

Markup Assist to quickly set up shared steps for everyone in a design team. Add as many or as few steps as you like; changes in step text and properties are automatically propagated to the other drawing. (video: 1:37 min.) Structure from Motion: With the improvements to the 2D Mesh model, there are new functions to clean up your mesh models.

Get rid of those ugly vertex holes with “Face Fill” and fix up the intersections with “Unify.” You can also easily create 3D models from 2D meshes and automate the process with “Mesh to 3D model” and “Annotate from 3D model.”

Vector Works in AutoCAD! The enhancements to the Vector Works for AutoCAD software include a new multi-platform file format for creating and sharing presentations, a new “Bookmark” function that will help you find what you want quickly and easily, and enhanced graphics tools.

AutoCAD 360: Have a presentation? Now you can access your presentation on all your devices or on your PC, Mac, iPhone or iPad.

Cloud-based Drawing Services and Sharing: Share your work on the web with other users, and easily collaborate with them in a shared project. Share your drawings over email, FTP, Dropbox, Box, Google Drive, Microsoft SharePoint, or by selecting the “Share this drawing...” option from your browser

window. Connect to a drawing using a URL or a proxy. Select a drawing to send by email, or use the “Send a copy of this drawing...” function. Collaborate with a drawing on a mobile device by using a web browser. Cloud-based Drafting: To upload your AutoCAD drawings to the cloud, visit the “Clouds” tab on the “File” menu in your AutoCAD application. You can browse and choose from many drawing cloud services, including Dropbox, Box, Google Drive, and Microsoft SharePoint. Cloud services can also be accessed by adding them to the “Add to AutoCAD Cloud” list. Cloud Drawings: Share your drawings directly from the cloud. Create a cloud drawing by accessing the cloud services as you would any other drawing.
