The title was developed by Arika. A couple of minutes ago, we were contacted by Diabolos. We'd like to confirm that an official apology has been made and so that this news will not be scorned: We hereby acknowledge the abusive behavior against Dolcezia and apologize to the player. With this, we are expressing that not only will we pay attention to the reports of players, we will also prevent the spread of false rumors. If there is a malicious rumor, we will promptly and appropriately respond. We once again express our apologies. Skyrim Legendary Edition is one of the most anticipated titles of 2014. Bethesda plans to release it on November 4, 2014 with a new price point of just \$59.99. Although this is great news for gamers who have been waiting for this game for some time, it is also sure to cause problems for people who already own it. Bethesda has now confirmed on the official Skyrim front page that they will be introducing DLC to the game after it is released. There will be no free DLC added to Skyrim, though. This is clearly a very bad move for the developer because it will mean an extremely high price increase for people who already own the game and want any of the add-ons that will be released post-launch. Now is the time to buy Skyrim Legendary Edition at the best prices by clicking below: If you are looking for quick and easy access to the Office 365 Portal without having to download any software, sign up for Office 365 Free for thirty days (or get a Microsoft Office 365 Home Subscription for \$99), and then, sign up for a PayPal account. After you have an Office 365 login, you can use the Office 365 Portal to download and install Office 365 on any Windows, Mac, or Linux computer. If you don't want to use your PayPal account for anything else, you can create a new PayPal account or use your current PayPal account to access Office 365 for thirty days. After the thirty days have passed, you can cancel your PayPal account and discontinue accessing Office 365.
