The only official videogame version of the FIFA World Cup™ and an ever-growing library of football. Play now. What is football? Football is played using two teams of 11 players on a rectangular pitch that measures 90 metres by 45 metres. Each team scores a goal by kicking or passing a ball through a goal-line (a rectangle of which the width is between 1.8 metres and 2.4 metres) into the opposing team's goal, to complete a sequence of 'touch' and 'kick' moves. Every game is won when a goal is scored by the team to the opposition's goal, or there is a period of play where a team has possession of the ball and does not score. Other features VAR is used at the 2018 FIFA World Cup™. This ball-to-ball technology measures crucial match variables (e.g. ball movement, goal scoring chances) to help referees decide on offside, goals, and penalties.
