Melody Of Iris-

A new original song and drama from the very talented band of "inory". The drama is about the characters in the manga "crying " in their new world after being released. The music plays very strongly in the beginning of the story and the drama - and is a constant mood enhancer. However, it stops playing as the story goes on, and the scenes are pretty enough to stand on their own. The characters are the "crying " part as they speak out of despair or tragedy, for the first 8 minutes or so. mood in the beginning.
