AIS Simulator is so far tested against Transas NaviSailor 3000 and ADVETO Aecdis2000. Programming LanguageÂ .Q: How to draw multi-pixel arrow with WebAssembly? I am trying to render a triangle using only WebAssembly instructions. However I can't figure out a way to draw a multi-pixel arrow. If I use lines, I get something like this: I'd like to render a triangle with

rounded corners and rounded borders. I am able to render triangles with WebAssembly, but they look like this: I am using a union type for the color. The horizontal stroke is fine, but the vertical stroke creates the "fake" borders around the border. Try to reduce the border if you're having trouble; here's the reduced code and result: function render(x, y, direction, offset, color) { if (direction === -1) { x += offset; y += offset; } else if (direction === 1) { x += offset;
