## **What's new:**

**-- Co op -- One of the best aspects of The Legend of Heroes: Trails of Cold Steel is the wonderfully expansive and detailed world for players to explore. At the same time, the story can get incredibly heavy sometimes and is quite a bit more complicated than what fans may expect. All that can make it difficult to find the right moments of light-hearted fun in the heavy story line of Trails of Cold Steel. Luckily, the spirit of the series shines through in the Intruding Glance Ranking system. An interesting way of rewarding you for any progress you have made on your own without adding additional pressure to the gameplay itself, Intruding Glance only adds more of an interesting trivia element to the adventure. While some of the previous titles in the series have some fun with the idea, The Legend of Heroes: Trails of Cold Steel is the first title in the series to implement this.**

**Character Creation The game offers the player several options when it comes to picking the Character you will play as. On one hand, it gives you a glimpse of your Character with some optional portrait pictures that will be present in the games world, while on the other hand, you are presented with a ton of different options that may really feel like a fashion show. All of these choices come with a multitude of different portraits you can pick from, so you can really create your own custom Character. Beyond that, you are able to choose your classes starting with a base class or picking among many events, like the Bloodlines, which help the players to develop their character in various ways. Most importantly, you are also able to give your Character a starting stat set of Power, Mobility, Dexterity, Endurance, Will and Intelligence. In between all this, you are given a customizable set of equipment that can consist of a wide variety of pieces, such as body armor and clothing, weapons, shoes and other stuff that make this game's adventure complete. Name your Character You are presented with a number of different options to name your Character. While the dialogue choices may be a little on the silly side, it still provides a lot of options and is a nice touch. Unfortunately, when a lot of different names are in need of a name, it may take a while to iron out one of the best ones.**
