“In the corner, There are some girls...” is a game about perfection! When a country starts into a war, there are 10 beautiful girls that have given up their education and become the national defense soldiers. It is their duty to protect the land from enemies from the outside and within. Since the girls are the main force, they are not allowed to leave, neither take vacations, neither escape, since they are going to be required for the highest secret service of the country. Each time the girls retire the player has 10 days to find them and make them join his team. The girls may be in different locations and are usually accompanied by a man who is the “protector” of the girls. For each day the player takes, the girls will do a photo shoot, so if the player wants to save time he can make photos with a girl and save them in his hard drive, then go to the next day and take the next photos with other girls. In this game the player can choose a team of girls and send them on a mission in order to reach a goal. The game is also divided into 2 parts: 1- Mission and 2- Arcade. The mission is of 3 levels of difficulty. Each level is accompanied by a picture and a list of girls to be picked. The game also has a level editor. In the mission mode, the player has to follow a list of girls given by the player, in order to achieve a goal: To shoot the girls with a target; to attract the girls and make them kiss the target; to make a girl drink a liquid; to make a girl say a sentence; to make a girl stand still. And, in the best case scenario, you will complete all the missions. In the Arcade mode, the player can play the girls in order to spend the time as he wants. With the help of a “partner”, the player can move the girls around, change their clothes, make them do stunts and speak with them. The girls are very unique as they are made with clear, elegant and detailed high-definition images, inspired in the old school Anime. Maybe, this is a great game for the

Features Key:

Fully 3D ahead of its time visualisation with modern graphics, animations and textures
Metallic, multitexture and photo-realistic environments
Simple mission-oriented puzzles
Local multiplayer mode for 3 or more players
Partial 3D mouse compatibility

Swingrowers is a futuristic city-building game inspired by a classic puzzle gameboard; the popular jigsaw puzzle game! Your goal is to clear all the barriers through an interesting city and clear zones corresponding to your color.

Explore the city - a fully 3D visualisation of an original 1960's nostalgic cityscape. Participate in various diverse missions, from mining and factory production to a beauty salon or a circus tent, from dispatch and delivery to detective work. Your city will be alert to the needs of its inhabitants, and will offer you tons of side game features such as graffiti or the Race Car Simulator. Play in solo or with up to 3 players locally on the same computer or with online multiplayer on the www! You can also record your creations, and share them on the web in an unique video format on YouTube.

The city blocks and zones are randomly generated and re-used at each load of the game. You can therefore expect high replayability from one to two hours of fun!

Ayahuasca: Polyventure OST Activator [Mac/Win]

Game Description: "You" are a new adventuring party embarking on a grand campaign of conquering and pillaging your way through the wide and limitless swathes of legend. Your mission is to reach the Mythical River of Men and Storm King, bring them together, and raise one mighty army to unite the lands of the Stolen Lands. As part of this mission, you will unlock vast wealth and power - but for the price of delivering a kingdom divided by battles and jealousy. Your first challenge is to establish your city and line of supply. To do this, you will need to build homes, farms, mills and other basic structures - and you will want to make sure to prepare for the struggle that lies ahead. Your next task is to expand your territory. There is much land to be seen but only a small fragment is in your grasp. You will need to build a water transportation network to keep the cities of the west supplied, but you will also need a powerful army to protect your newly acquired kingdom. When you meet your army, they must be prepared for battle and ready to march out on the field at a moment's notice. Your final challenge will be to coax the River of Men and Storm King into one epic crusade. The race is on - who will reach them first and how will you change their minds? As you face these challenges, you will come to realize that they are just some of the many hurdles you will face in the quest to unite the lands. The battles you'll be fighting are not just the ones you'll encounter while fighting the mighty monsters of myth that inhabit the lands, but the battles you will face within your own divided city! You will fight many battles, battle many players, and your starting decisions will matter to the long-term fate of the world. These myths are so much bigger than yourself... What's new in Ayahuasca: Polyventure OST:

True blood is the coating that is put on to it. He'll leave no traces. Our hero is just a normal guy, right? I'm "merely" a male nurse. You don't need to talk so much, though. In my mind, we're not that different, are we? After all, whether it's my life or yours, I'm just a human being, right? But don't take me for a fool. I don't mean to talk loudly. I'm a man, and I'm a person, too. After a long while of working as a male nurse in the same ward, I have suddenly found it necessary to make a declaration. However, we all live in the same world, so I guess it won't be too much to ask. If there is even the slightest difference between a male nurse and a female nurse, the answer to this question should be "yes". But, sadly, I don't know of any orifices that differ between the two. It's certainly not about whether or not that culture is suitably refined or not. It is because I don't know any details. I've attempted to complete my education, which stops at primary school, and before that time at junior high, to be truthful. Let's start by stating that I'm still rather off-kilter regarding the female body. It's something that's easy to understand without thinking about it. Nowadays, now that I think about it, I can even empathize. Every day, when I go home, I say, "I'm going to save my face!" And that may have been the very best way of all. The secret behind being a male nurse is effectively to save your face until the next day comes. Someone who is good at what he does for a living, even if it be told that it's just some kind of manual labor, has been spending a great deal of time working. Especially when compared with women, the possibility of faces being saved is rather trivial. In the case of male nurses, it'
