I can do this without PDO but I want to use PDO. I have just been experimenting and testing the code so am having a hard time figuring out what is going wrong. I tried saving the \$x to a database and displaying the values saved and when I did this each row had the same value in the table. \$query = "SELECT id,name,email,pass,type FROM test_table"; \$result = mysqli query(\$dbc, \$query); \$x = array(); \$num = 0; while (\$row = mysqli fetch assoc(\$result)) {
