The story of Tarnished, the hero who decides to go on a quest to cut through the darkness of the mysterious Story World, is now starting with A New Fantasy. With a new fantasy setting, a new unique adventure, and a new main character with all-new charm, this is definitely not a game for the faint of heart. A New Fantasy is also the last game in the Tarnished series, and the main theme is also the return of action elements. While the battle system of the classic game has been totally reworked, the user interface is simple and easy to understand. Players will discover a battle system that is both exhilarating and easy to use. • MMO Online Action RPG for Up to 32 players Facing the hardships of the turn-based world, A New Fantasy was created, and we are giving players the freedom to play and compete with others in a truly open world. • Fully Customizable Character You will choose your own main character, make meaningful decisions, and roleplay to grow your character. We designed the game based on the idea that a character becomes more than just a figure on the screen and is actually an extension of the player. So, you can

make your own character the way you want. • Explosive MMO Action RPG Battle System The battle system of the game combines the fast action of the third-person shooter genre with the card-based battle system of the collectible card game. • Engaging Story The Unbelievable Hero?
