allows.Secondary mobile menu Share Comment New research shows that water use on farms and
ranches has risen significantly since 1950. By Noah Bierman There's an age-old adage that says,
"One man's trash is another man's treasure." In the age of digital data, this can be translated into
the useful fact that, at least in certain cases, if researchers want to learn about something, they can
look at data, compute how that something is changing, and then draw conclusions
