# DEADSIDE PC Game Free Download EXCLUSIVE

**Download**

---

Experience a realistic post-apocalyptic game environment filled with NPCs and other players. Deadside is all about the balance between shooter dynamics and . well, everything else! The game is set in the near future after nuclear wars have destroyed every country around the world. As a result of a pandemic in a country that could no longer feed its citizens, the population has turned into zombies. The people left alive were forced to become hunters in order to survive, and to do so, they formed organizations called Militias. Players could choose their own unit and go as a hunter or an assassin--or maybe all at once.

## DEADSIDE PC Game Free Download

Deadside is a hardcore multiplayer shooter with survival elements. Post-apocalypse, PvP, PvE, open world, realistic weapons, crafting, base building. What you need to know about Deadside: 1. Time of day: At different times of day will vary characteristics of monsters and players. You can only sleep in a shelter. The higher the temperature, the more ferocious the monsters become. 2. The more players in the game, the higher the chance that enemies will attack you. 3. the more players in the game, the higher the chance that enemies will attack you. 4. There will be two modes in the game: Hardcore and End Game (the latter mode will be available at the end of the game). dd2bc28256
