## **Justice League The Flashpoint Paradox 720p Download !!INSTALL!!**

Lets be real for a second -- this event, the Flashpoint-referenced reboot of the DC Universe, really is "Flashpoint" only for the people who know more about Flashpoint than I do. Its characters, plot, and themes do not really translate to anything other than "Justice League" fans, since it revolves around Batman, Wonder Woman, and Superman. Which is to say, it's fine. It's a fun time, and a little silly, but it works quite well, and now we'll have this in DC's cinematic line-up. --Chris Arrant, Film School Rejects In Flashpoint, a time traveling Flash uses a quantum singularity to erase the universe and everything in it, except his loved ones and Batman and Wonder Woman. The resulting paradox is devastating for Flash, who loses all of his powers. This causes a catastrophic tragedy, with no one being able to tell anyone, other than Batman, what has happened. The story has some good ideas, and some things that are straight up silly, with characters from The Silver Age of Comics (If you dont know what that is, then I really have no idea what the hell you are talking about), Cyborg came from a universe where he watched his family die, and his girlfriend was dying of cancer. Batman had an extremely homophobic father who forced him to become a hero, and his boyfriend was a terrible athlete. After Flashpoint erased the universe, we get to follow Flash, Nightwing, Cyborg, and Wonder Womans father, a by-the-book police officer, to fight off the evil Flashpoint corrupted League of Assassins.

The Flash has to collaborate with a non-existent Justice League to reverse an altered timeline and avoid a war between Aquamans Atlantis and Wonder Womans Amazons. Watch Justice League: The Flashpoint Paradox (2013) full episodes online free watchcartoononline.Synopsis: When time travel allows a past wrong to be righted for The Flash and his family, the ripples of the event prove disastrous as a fractured, alternate reality now exists where a Justice League never formed, and even Superman is nowhere to be found. Teaming with a grittier, more violent Dark Knight and Cyborg, Flash races to restore the continuity of his original timeline while this new world is ravaged by a fierce war between Wonder Womans Amazons and Aquamans Atlanteans. You dont necessarily get that depth out of animated Death/Reign, but you do get a sense of Supermans value in the world that these DCAU movies have created a Justice League full of heavy hitters fighting not to let Clark down, a Steel and Superboy fighting to live up to the legacy theyve inherited, and a Hank Henshaw with some legitimate complaints. Its also a lot of fun to see what theyve tweaked to fit the continuity, and what they cribbed from other sources

(theres a LOT of Superman/Doomsday: Hunter/Prey in Reign of the Supermen) to fill out the tale.  
Both of these movies are worth your time. 5ec8ef588b
