After you download the app for the first time, you will have access to all of the Premium features for the whole world for the first 14 days. Premium features will get locked after the trial period expires. Maps, search, and car routing will still be available, but if you try to navigate, the map will not follow the navigation arrow and run off the screen. If you want to keep using Truck routing and navigation, it is necessary to purchase one of the available Truck or Caravan licenses based on your preferences.
