BT Watcher is a powerful all-in-one software which can help you to manage all your computer's internet connections. It records internet browsing history in a log file and lets you see the most active websites, time spent per site, history time per site, which websites are accessed the most frequently, etc. All this data is presented as charts which give you an easy-to-read display of all your information. You can view the history of a single web site or of an entire website. It is possible to manage and compare your Internet activities in different websites and even on different computers (this feature is provided only in version 5.0 or higher). BT Watcher Pro can work with the following operating systems: Windows 95/98/Me/2000/XP/2003, Windows Vista, Windows 7. Please leave your comments below. Thank you! Best Regards, MyCoolSoft Team.
