This paper deals with problems related to the use of a backscatter reflectometer for use in oceanography. The backscatter reflectometer is based on the use of an external source of microwave radiation (ISW). It has been observed that the reflectivity decreases with time. A simple model is proposed to explain this effect. This model involves the following basic assumptions: a horizontal ice layer is drilled; the

protesters staged a march in

central London. “Stand up to the Tories” and “Stop the Brexit betrayal” banners could be seen on the streets as people took to the streets chanting and singing.

Opponents of the EU deal say that the agreement is a “bad” deal that will damage the UK and threaten peace in

Northern Ireland. The vote
