As I mentioned in my review for Serato DJ Pro, there are a number of plugins which can give you some control over pitch in the. Located in the heart of Crown Heights, this drop-in programming at the Tompkins Houses provides direct services to residents within the community, including mental health treatment, social services and supportive housing. Public Housing Resident Resources Do you have questions about public housing? Is there an emergency or a problem you need to report? Don't hesitate to come to your public housing manager, we're here to help! We can respond to housing emergencies at any time of day or night. A former homeless shelter with a multitude of services, the Carle place offers a safe place for adults and families to rest, relax, play, eat, and meet others in their community. Using a model of service-learning, Carle's staff creates collaborative partnerships with other nonprofit community organizations. Public Housing For the homeless evolved from the Salvation Army, where it was first housed, in 1892, and moved to George M. Pullman to serve 400 men. The current site is the first public housing project approved by the City of Chicago under the provisions of the 1934 U.S. Housing Act. The development consists of four 15-story towers, of which only three towers were built. These towers, which were constructed from 1952 to 1972, now house 3,854 families. Tompkins Houses Sponsored by the Chicago Housing Authority (CHA), Tompkins provides long-term low-income housing for families in the area. The CHA has provided permanent housing to more than 100,000 families since 1932. One in eight CHA families receives some form of

public assistance and 42 percent of CHA families are single-parent families. The present invention relates to a method of inspecting an optical disk and its apparatus and particularly to an art for automatically inspecting an optical disk such as a rewritable disk or a magneto-optical disk on which information is written or information is read with the use of an optical means. Conventionally, in the case of manufacturing an optical disk or inspecting a defective condition or the like, an operator visually inspects an optical disk
